

Caution Concerning Forward-Looking Statements

This section contains important information about our forward-looking statements. Please also see our annual reports on Form 10-K and quarterly reports on Form 10-Q that we file with the SEC and that you can find on our website by clicking [here](#).

(for communications dated on or after January 23, 2024)

Caution Concerning Forward Looking Statements:

This release and certain of our other public communications and SEC filings may contain statements related to future, not past, events. These forward-looking statements often address our expected future business and financial performance and financial condition, and often contain words such as "expect," "anticipate," "intend," "plan," "believe," "seek," "see," "will," "would," "estimate," "forecast," "target," "preliminary," or "range." Forward-looking statements by their nature address matters that are, to different degrees, uncertain, such as statements about planned and potential transactions, including our plan to pursue a spin-off of our portfolio of energy businesses that are planned to be combined as GE Vernova; the impacts of macroeconomic and market conditions and volatility on our business operations, financial results and financial position and on the global supply chain and world economy; our expected financial performance, including cash flows, revenues, organic growth, margins, earnings and earnings per share; our credit ratings and outlooks; our funding and liquidity; our businesses' cost structures and plans to reduce costs; restructuring, goodwill impairment or other financial charges; or tax rates.

For us, particular areas where risks or uncertainties could cause our actual results to be materially different than those expressed in our forward-looking statements include:

- our success in executing planned and potential transactions, including our plan to pursue a spin-off of GE Vernova and sales or other dispositions of our remaining equity interest in GE HealthCare, the timing for such transactions, the ability to satisfy any applicable pre-conditions, and the expected proceeds, consideration and benefits to GE;
- changes in macroeconomic and market conditions and market volatility, including risk of recession, inflation, supply chain constraints or disruptions, interest rates, the value of securities and other financial assets (including our equity interest in GE HealthCare), oil, natural gas and other commodity prices and exchange rates, and the impact of such changes and volatility on our business operations, financial results and financial position;
- global economic trends, competition and geopolitical risks, including impacts from the ongoing conflict between Russia and Ukraine and the related sanctions and other measures and risks related to conflict in the Middle East, demand or supply shocks from events such as a major terrorist attack, natural disasters or actual or threatened public health pandemics or other emergencies, or an escalation of sanctions, tariffs or other trade tensions between the U.S. and

China or other countries, and related impacts on our businesses' global supply chains and strategies;

- market developments or customer actions that may affect demand and the financial performance of major industries and customers we serve, such as demand for air travel and other commercial aviation sector dynamics; pricing, cost, volume and the timing of investment by customers or industry participants and other factors in renewable energy markets; conditions in key geographic markets; technology developments; and other shifts in the competitive landscape for our products and services;
- our capital allocation plans, including the timing and amount of dividends, share repurchases, acquisitions, organic investments, and other priorities;
- downgrades of our current short- and long-term credit ratings or ratings outlooks, or changes in rating application or methodology, and the related impact on our funding profile, costs, liquidity and competitive position;
- the amount and timing of our cash flows and earnings, which may be impacted by macroeconomic, customer, supplier, competitive, contractual and other dynamics and conditions;
- capital or liquidity needs associated with our run-off insurance operations and mortgage portfolio in Poland (Bank BPH), the amount and timing of any required future capital contributions and any strategic options that we may consider;
- operational execution and improvements by our businesses, including the success at our Renewable Energy business in improving product quality and fleet availability, executing on our product and project cost estimates and delivery schedule projections and other aspects of operational performance, as well as the performance of GE Aerospace amidst market growth and ramping newer product platforms;
- changes in law, regulation or policy that may affect our businesses, such as trade policy and tariffs, regulation and incentives related to climate change (including the impact of the Inflation Reduction Act and other policies), and the effects of tax law changes;
- our decisions about investments in research and development, and new products, services and platforms, and our ability to launch new products in a cost-effective manner;
- the impact of regulation and regulatory, investigative and legal proceedings and legal compliance risks, including the impact of shareholder and related lawsuits, Alstom, Bank BPH and other investigative and legal proceedings;
- the impact of actual or potential quality issues or failures of our products or third-party products with which our products are integrated, and related costs and reputational effects;
- the impact related to information technology, cybersecurity or data security breaches at GE or third parties; and
- the other factors that are described in the "Risk Factors" section of our Annual Report on Form 10-K for the year ended December 31, 2022, as such descriptions may be updated or amended in any future reports we file with the SEC.

These or other uncertainties may cause our actual future results to be materially different than those expressed in our forward-looking statements. We do not undertake to update our forward-looking statements. This document includes certain forward-looking projected financial information that is based on current estimates and forecasts. Actual results could differ materially.

GE's Investor Relations website at <https://www.ge.com/investor> and our corporate blog at www.gereports.com, as well as GE's LinkedIn and other social media accounts, contain a significant amount of information about GE, including financial and other information for investors. GE encourages investors to visit these websites from time to time, as information is updated and new information is posted
