Welcome to AEMTC

Aero Engine Maintenance Training Center (AEMTC) is located on the campus of the Civil Aviation Flight University of China (CAFUC) in Guanghan City, Sichuan Province, China. AEMTC is a partnership between CFM, GE, SAFRAN, CAFUC, CAAC, and CAS. The AEMTC specializes in maintenance training on CFM and GE commercial engines, as well as serving as a CAAC vocational training facility.

The Mission of AEMTC is to provide advanced and high quality training courses, to improve maintenance skills of airline personnel and enhance the understanding of aircraft engine basic theory, and improve the quality of maintenance management level.

AEMTC’s main customers are those airlines in China who operate GE or CFM engines. Other customers are those airlines who operate GE or CFM engines but not within China and those engine service providers both in and out of China.

AEMTC’s training quality shall meet the requirements of GE or CFM and the certification requirements of the CAAC airworthiness department as specified in the Airworthiness procedures.

AEMTC has a staff of instructors and administrative support personnel, who design, develop and deliver training to meet customer needs. Instructors train students representing customers from around the world.

EHS Policy

Customer Training Services is committed to protecting employees, students, contractors, visitors, the environment, and property from accidental loss.

In fulfilling this commitment, we shall work to provide and maintain a safe and healthful work environment. We shall strive to eliminate any foreseeable hazards, which may result in fires, security losses, and damage to property and personal injuries/illnesses.

Accidental loss can be controlled through good management in combination with active employee involvement and appropriate support from EH&S professionals. Loss prevention is the direct responsibility of all managers and employees.

Customer Training Services management will comply with the The Transportation’s loss prevention requirements as they apply to the design, operation, and maintenance of facilities and equipment. All employees will perform their jobs properly in accordance with established procedures and operating philosophy.

We trust that all of you will join us in a personal commitment to loss prevention as a way of life.
